

AutoSimply SalesAnywhere

Introduction

With constant development and changes in businesses nowadays, companies need to explore every selling opportunity. Trade fairs, booths at the shopping mall, weekend markets, mobile salesmen on the road or walk-in customers. SalesAnywhere is a simple solution for recording sales, generating invoices and capturing payments right on the spot with online, real-time update to your Sage 300 system.

Product Information

AutoSimply SalesAnywhere is an easy and comprehensive solution for small to medium-sized trading enterprises that do over-the-counter sales at remote venues. SalesAnywhere offers quick and easy ways to record sales, generate invoices and capture payments using tables and notebooks.

Designed for barcode scanning, you simply scan all the items and post the order. Capture payments easily with support of partial payments and multiple payment types per order. With a wireless printer, you can quickly generate receipts on the spot.

Using web service technology, SalesAnywhere accesses your Sage 300 system online and updates documents real-time. O/E orders, A/R invoices and receipts are generated on-the-fly eliminating data entry in the back-office, and ensuring 100% accuracy. Working together with AutoSimply A/R Pricing and O/E Pricing, price lists and volume discounts are applied automatically during sale.

With inquiry tools, you can look up previous invoices and apply payments for remaining balances. Sales inquiry allows you to check total sales of the day at the location and easy reconciliation of payment received.

Sell and Invoice anywhere

- Sell and invoice anywhere with a tablet when you are on the go

Barcode scanning

- Scan barcodes of items and finish the sale in seconds

Online real-time update to Sage 300

- No more manual data entry in the back-office
- 100% accurate

Easy Setup and no learning curve

- Simple interface means anyone can use without learning
- Generates standard Sage 300 documents, no change to back-office operation

Key Features of SalesAnywhere

- Optimized for tablets, sell and invoice anywhere** SalesAnywhere offers quick and easy ways to record sales, generate invoices and capture payments. Optimized for tablets and notebooks with touch screens, you can sell and invoice anywhere when you are on the go.
- Designed for barcode scanning** SalesAnywhere is designed for barcode scanning of items that greatly improves the efficiency of entering an order. Just scan all the items you are selling without the need of touching the keyboard.
- Online, real-time update to Sage 300** The orders, invoices and payments captured by SalesAnywhere are updated real-time to your Sage 300 system. No synchronization and risk of mismatched data. No manual work in the back-office. 100% accurate.
- Seamless integration with A/R Pricing and O/E Pricing** SalesAnywhere works seamlessly with AutoSimply A/R Pricing and O/E Pricing. The price lists and discounts set up in those modules are applied automatically at sale time. What you get is a complete pricing and invoicing solution anytime, anywhere.
- Sales inquiry** Look up previous invoices and apply payments to remaining balances. A total sales view shows you sales for the day at the location, with a breakdown of payments of all payment types for easy reconciliation at the end of the day.
